Subject: VB-170

I just got off the phone with Nick at Metro Brokers asking about a property at 3800 High St. I went through the CD and did not find it as well as other test results I've received. This is a vacant lot and the owner is trying to sell it. They would like to have it tested and were wondering how soon it could be tested? Nick, the real estate agent would like you to call him first to let him know about getting the property tested. I will include both his phone number and the information for the property owner.

Nick - Metro Brokers
720-297-5338

Property Owner
Ruth Sanchez
2612 S. Lincoln St.
Denver, CO 80210
720-936-6526

**PUBLIC
DOCUMENT**

I guess I'm not clear if you can send someone out to test whenever you get a request or if we are gearing up for the spring cleanup so we can do several at one time?
